

DEPARTMENT OF POLITICAL SCIENCE
INFORMATION & COMMUNICATION
TECHNOLOGY (ICT)

2020-21 to 2022-23

INFORMATION & COMMUNICATION TECHNOLOGY (ICT)

Information & Communication Technology students gain knowledge and skills needed to effectively apply, use and manage technology when solving problems specifically related to information and communication. ICT majors may pursue one of two concentrations. ICT Commercialization: Focuses on ICT as an enabling tool to drive economic growth. Technology Management: Focuses on using technology to provide a stable operating environment. NEW: ICT is excited to announce their new track-Information Studies. The information studies track allows students to learn how information can be created, communicated, stored, and/or transformed to benefit individuals, organizations, and society. In our information-based society, teaching practical skills for analysing, processing, managing information that will allow them to then create technology-based solutions using a user-centred approach and evaluate the roles of information in a variety of organizational settings is a valuable skill set that is currently sought by employers.

ACADEMIC YEAR 2020-21

LIST OF ICT BASED CLASSES

INDEX

S.NO	DATE	PROGRAM	TOPIC	NO. OF STUDENTS ATTENDED
01	07-12-2020	II BA	Government of India Act 1935	28
