DEPARTMENT OF MATHEMATICS

BEST PRACTICE

CAREER GUIDANCE FOR HIGHER EDUCATION

BEST PRACTICE OF THE MATHS DEPARTMENT

TITLE OF THE PRACTICE

CAREER GUIDANCE BY HIGHER EDUCATION

Career Guidance Training:

Title of the Practice VVCE offers career guidance on all aspects of career planning, job opportunities and options of post-graduate studies for students to help them choose the right career path based on their interests and capabilities. The Institute works towards enhancing the individual and institutional culture to better turn out graduating students with appropriate attitude, capability and temperament to serve the needs of an ever-changing and dynamic needs of the community.

OBJECTIVES

The practice of continuous and improved career guidance serves to achieve the following objectives,

- ❖ To broadly explore various career options. The practice helps the students to think of various forms of careers that can be taken up by them after completing the graduation
- ❖ To enable students to select appropriate higher education program after completing the undergraduate program

- ❖ To provide a platform for gaining knowledge on various aspects relating to civil services examinations along with Interaction with some already successful candidates.
- ❖ To take teaching services beyond the class rooms
- ❖ To extend teaching services of the faculty members to the society

METHOD

Mathematics graduates have many options for careers including teaching as well as working in multiple disciplines by higher education, Combining mathematics with other specialist subjects such as economics, statistics, computer science, applied mathematics, engineering, and mathematical sciences can greatly improve job prospects.

Engineers with good mathematical skills can find employment in chemical engineering and electronic engineering. Additionally, you can consider careers in business, science, social services, education, public sector undertakings, and specialized technical fields such as system design.

CONTEXT

The department of mathematics is conducted by the career guidance by higher education to guidance the students by III BSc (MPC) Students participated the class.

Practice

These goals are achieved through the following activities of Training and Placement Department. Some Supplementary and Complementary activities were also taken up by Math Departments.

- Career Guidance training programs are conducted for students to help them explore various career options by higher education.
- Students are encouraged to participate in technical contests, carry out project work, undergo internships and also organize various technical activities to enhance their knowledge through experience
- Seminars highlighting the importance of higher education and Institution's & Universities of Higher Learning for admission are conducted.
- The Career Counselor help should be around assisting the client use the experiences they bring to generate career

ideas. Career Counselling helps people to discover and build on the skills they like using most. When clients know their strengths, they develop the confidence to move into the world of work.

Uniqueness in the context of India higher Education.

The career guidance offered at VVCE not only includes regular placement training programs but also includes the following,

- Life skills training program are conducted to bring a better personal understanding of one self, so that they are more successful and actively capable to participate in personal and professional life.
- The recruiters provide necessary on campus training program. This in turn enhances the confidence to perform better, before they report to the job positions for which they are selected, in the pre-final year of study. This allows for higher retention in the companies they join.
- Career Guidance activities is not just a routine program but a highly focused activity. It has desirable feature of continuous improvement, based on regular feedback from the stake holders such as employers and alumni. The college management and administration has strong supported it at all times.
